PROFILE I'm a front-end web developer. I focus on the HTML, CSS, and Javascript part of a website. The what your eyes can see and what your fingers can swipe part of a website. I make it good, responsive, and fast.

SKILLS HTML, CSS, Javascript, jQuery, AngularJS, RequireJS, React.js, Sass, Bootstrap, Grunt, PHP, and Wordpress.

WORK EXPERIENCE

Front-end Developer from May 2015 to July 2016
Hilton Worldwide, Memphis, Tennessee, 755 Crossover Ln.
I worked on a variety of Hilton websites including Hilton, Tru, DoubleTree, Canopy, and EmbassySuites. Also developed smaller sites including uber.hilton.com, Luxury maps for Waldorf and Conrad brands, and dynamic advertisements.

Front-end Developer from November 2014 to April 2015
Lokion, Memphis, Tennessee, 88 Union Ave.
I, and a team of 2 designers and 2 developers, worked with Glasses.com on the mobile version of their new ecommerce website

Web Designer from December 2011 until May 2012
Knoco, Memphis, Tennessee (facebook.com/KnocoStudios)
I was extensively involved in designing and developing Knoco's Wordpress blog.

PROJECTS

Volunteer Odyssey (calendar.volunteerodyssey.com)
Front-end Development, Design
During GiveCamp Memphis 2015 and 2016, a weekend-long event, I and a team of Ruby on Rails developers worked on a responsive calendar solution for Volunteer Odyssey. I took care of all front-end development and design.

EDUCATION

University of Memphis from August 2011 until September 2013
Computer Science, Japanese
I spent two years in Memphis studying Comp Sci and Japanese.

J.F. Oberlin University from September 2013 until July 2014
Japanese
I spent a year abroad in Tokyo extensively studying Japanese.
