1341 Isabelle St. Memphis, Tennessee 38122

Phone (901) 500-9682 **Email** hello@derickruiz.com **Website** http://derickruiz.com/

PROFILE

I'm a front-end web developer. I focus on the HTML, CSS, and Javascript part of a website. The what your eyes can see and what your fingers can swipe part of a website. I make it good, responsive, and fast.

SKILLS

HTML, CSS, Sass, Bootstrap, Javascript, jQuery, AngularJS, RequireJS, Grunt, PHP, and Wordpress.

WORK EXPERIENCE

Front-end Developer from January 2015 to April 2015

Lokion, Memphis, Tennessee, 88 Union Ave.

I, and a team of 2 designers and 2 developers, worked with Glasses.com on the mobile version of their new ecommerce website

Web Designer from December 2011 to May 2012

Knoco, Memphis, Tennessee (facebook.com/KnocoStudios)

I was extensively involved in designing and developing Knoco's Wordpress blog.

PROJECTS

Volunteer Odyssey (calendar.volunteerodyssey.com)

Front-end Development, Design

During GiveCamp Memphis 2015, a weekend-long event, I and a team of Ruby on Rails developers worked on a responsive calendar solution for Volunteer Odyssey. I took care of all front-end development and design.

Responsive Photography (derickruiz.com/photography)

Design, Front-end Development, and Content Strategy

A responsive photography site for my photos where every device loads the best-sized photos for its width using HTML5 picture and media queries for amazing speed boosts.

We Support Memphis (wesupportmemphis.com)

Front-end Development, and Design

A website that responsively displays photos uploaded from Instagram using their Javascript API so pictures taken during the Memphis Blue Flu protests could reach and impact a wider audience.
